

Tombstone

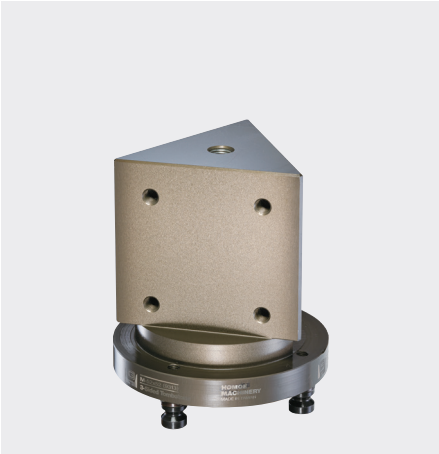

Advancements in Machining Centers Efficiency

The 3-sided or 4-sided Tombstone effectively enhances changeout efficiency in machining centers, particularly with smaller 5-axis machines. This innovation overcomes conventional clamping setup restrictions, enabling the execution of complex tasks even on compact machines.

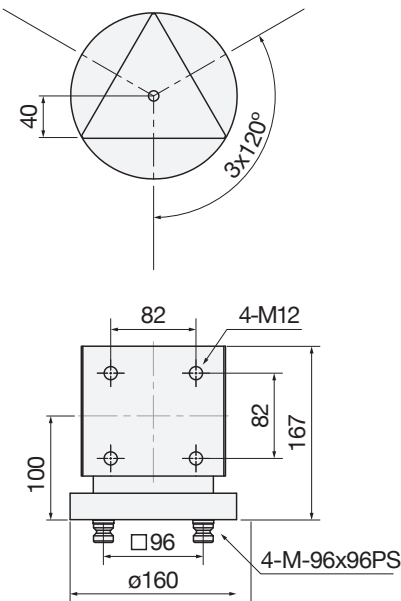

Tombstone

3-Faced Tombstone

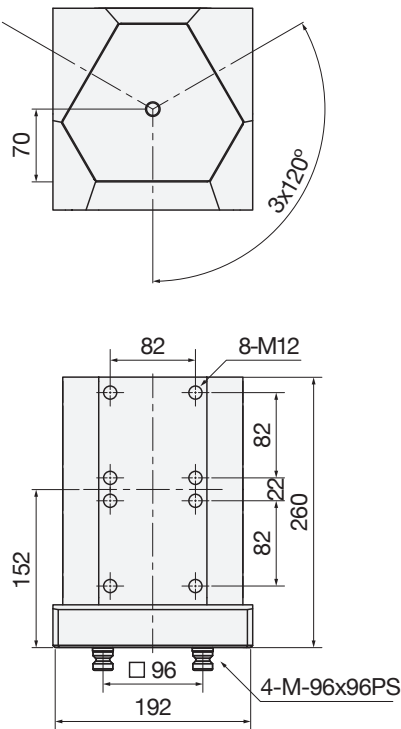

M-52x52 (9313)

Size	Ø160x167 mm
Pull Stud No.	M-52x52PS/ M-96x96PS
Mounting Holes	—
Weight (kg)	4.5
Compatible with	Grid Plate M-52x52 (8011) x 3 pcs

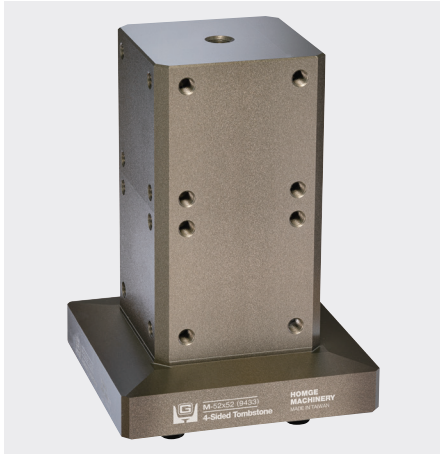

M-52x52 (9333)

Size	192x192x260 mm
Pull Stud No.	M-52x52PS/ M-96x96PS
Mounting Holes	—
Weight (kg)	15.2
Compatible with	Grid Plate M-52x52 (8011) x 6 pcs

4-Faced Tombstone

M-52x52 (9433)

Size	192x192x260 mm
Pull Stud No.	M-52x52PS/ M-96x96PS
Mounting Holes	—
Weight (kg)	12.5
Compatible with	Grid Plate M-52x52 (8011) x 8 pcs
